4. a) Overall, do you feel using the software would help you do the job if needed?

☐ Yes ☒ No

b) Why?

I would use programs already on the market like 'Recuva' for recovering files.

Would deploy anti-virus software to check for suspect files.

5. Any other comments or suggestions

The menu of the application was easy to view and use. making navigation easy.

However, some descriptions and visuals can be somewhat overwhelming and requires more explanation, understanding however, this application is meant for everyone not just novices.
